

The Bennett SAC committee met on 10/12/2020. In attendance were Principal Amy Smythe, Vice Principal Angie Noden, Teri Mayeda-McNamee, Mike Drake, and Alissa Vlcek. To begin, we went over the roles and responsibilities of being a SAC member of the Poudre School district as per the website citing the responsibilities per the district website (Unified Improvement plan, Input into the Accreditation , the quarterly SAC discussion topics, Annual reports principal evaluations, and other duties). We went over what does not fall under SAC duties in terms of responsibilities. We also went over that SAC complies with the Sunshine Laws and therefore a summary of the meeting will be provided. We did a data review of last year's data, this year's home data, and the change in the Bennett teacher evaluation. We discussed the importance of shared values because it gives a reference to go back, as well as, creating uniformity in the teachers' roles, responsibilities, and standards. We talked about how this factors into the current year review. There was also note to review the current UIP the carries over into next year. We also talked about Bennett students and the virtual learning process as it evolves into Phase 3 of PSD learning. We discussed the how things are going with students back in the classroom. We talked about the importance of mask wearing and social distancing whenever on Bennett property by everyone. We discussed the new pick up and drop off rules and procedures and how it is being implemented. We also talked about the many many different procedures, measures, plans, and rules that have planned by Bennett leadership. We ended the meeting by opening communication between Amy Smythe and Angie Noden on ideas, concerns, and questions that come up between now and the next meeting on 12/14/20. We also discussed the possibility of adding more meetings to the calendar as needs arrive.
